To Whom It May Concern:

Re: Letter of Recommendation

My name is Alison Lorraine and in the year 2000, my father was diagnosed with malignant mesothelioma as a result of his asbestos exposure whilst working as an electrician. My father instructed Alex Stuart to be his lawyer and commenced legal proceedings. These proceedings settled and compensation was paid to him.

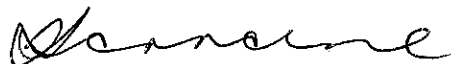

My family and I are indebted to the Stuart Lawyers firm for their expedience, professionalism and kindness that they offered our family during the traumatic and extremely emotional months when my father was fighting the disease and fighting to give his family a financial future.

The Stuart Lawyers firm facilitated the legal proceedings to ensure that our family always understood the legal situation and were fully informed at all stages regarding our options so that my father could make the best decision for our family. The firm always acted appropriately in challenging circumstances as at that time my father's condition required many medical procedures and the involvement of many health professionals. The Stuart Lawyers firm always created a supportive environment for the legal negotiations that made my family feel comfortable and safe throughout the entire process.

The question of whether to involve lawyers in the first instance was an issue that my father and family grappled with from the beginning. However, I have no doubt that we made the right decision. The Stuart Lawyers made the difficult legal negotiations as easy as they possibly could be and this ultimately resulted in compensation for my mother and the family. This was exactly the result my father wanted to ensure that we were financially secure and decisions that faced us in the future would not be determined by money.

I have no hesitation in recommending the Stuart Lawyers to any family considering initiating legal proceedings. Our family has a secure financial future and we owe that to this firm. On behalf of my father, please consider this letter our highest recommendation of the Stuart Lawyers firm.

Yours sincerely,

Alison Lorraine
